

Individual one-to-one language training

This intensive Business English programme in both formal and informal settings

Our Individual Course provides individual one-to-one training tailored specifically to your language needs. This programme comprises intensive 1:1 training in the morning and afternoon, and includes contact time with trainers during tea and coffee breaks.

The 1:1 tuition consists of structured speaking and listening activities, including telephone and meeting simulations, preparing presentations, writing emails and taking part in negotiations and business discussions – all designed to be as relevant as possible to your job and your workplace.

In addition, your week will include the opportunity to speak with the trainers and your host family in a more relaxed setting.

Expert trainers

Experienced in business, highly qualified and proficient in Abbey's unique methodology, our training team will help you acquire the language skills you need for your job and professional career.

Welcoming host families

Our hosts are known to us personally, are familiar with our methods and provide an additional 20+ hours of social conversation per week. They are selected to provide a high standard of meals, accommodation and attention.

Relaxing rural location

Malmesbury is a beautiful and ancient town in the south west of England, within easy reach of London and Bristol airports and mainline railway stations.

The benefits of an Individual Course

An Individual Course provides the benefits of one-to-one tuition, plus time to improve your Social English

Individual courses provide 1:1 Business English training for professionals who want an intensive focus on their personal language requirements. The course activities are varied and include discussions and simulations (such as negotiations, writing emails and making telephone calls) that mirror the real-life experiences you encounter on a regular basis in your workplace.

After conducting a needs analysis, your trainer will create a Course Plan that sets out the timetable and course contents for the week ahead. The focus is always on learning practical language skills that will benefit you in your working environment. After each day's training session, you will have the opportunity to consolidate your learning and further develop your English grammar and vocabulary.

Because this is an immersion course, you will also benefit from additional English-speaking time with your host family in the mornings and evenings.

To take an Individual Course at Abbey, participants can be at Beginner level in English or above.

Abbey has been helping people communicate more effectively in international business for over 25 years and has an excellent reputation in countries worldwide.

Your training choice

Abbey's unique methodology

We provide a relaxed and supportive learning environment where you will be encouraged to speak English immediately, both within the training setting and after-hours. Our activities are designed to help you use language spontaneously and to communicate confidently and with authority.

Our intensive immersion programmes are often seen as complementary to other learning methods and are frequently undertaken as part of a 'blended' learning package, perhaps involving online training or study in your home country.
